New to southern Maryland

Hi, my name is Dallas Thomason. I am an IT (Information Technology) guy. I've been an IT guy since 1977. That is a long time in the IT industry. I won't bore you with all the acronyms and buzz words over the past 35 years. I can attest IT is fun and is always moving forward. I can confirm over and over that the technology tools of five years ago may not even be in existence today.

A programmers rule: "Grow with the tools or get out of the way".

I can't wait to start the next project.
